## HOW TO MEASURE YOUR BODY

### Step-by-Step Measurement Guide

- **Chest:** Measure horizontally around the broadest part of your chest, keeping the tape level.
- **Waist Hem:** Measure around your torso right at the point where a cropped jacket hem rests (around the high waist/navel level).
- **Shoulder Width:** Measure across the back from seam-to-seam at the tips of your shoulders.
- **Back Center Length:** Measure vertically from the base collar seam down the middle of the back to the cropped bottom hem.

**Cropped Fit & Styling Advice:** This piece features a shorter back center length than conventional leather jackets for a high-waisted, structured aesthetic. If you prefer a looser, longer fit across the torso or intend to layer heavy hoodies underneath, consider sizing up.
