ARMOR FITTING & LAYERING TIPS

- **Side Strap Adjustability:** Medieval armor and gladiator chestplates feature adjustable side buckles, providing an extra 2" – 3" (5 – 8 cm) of flexibility around the chest and waist.
- **Layering Considerations:** If wearing over a tunic, gambeson, or chainmail shirt, take your measurements while wearing those undergarments.
- **Torso Length:** Center front length is measured from the collarbone dip down to the top of the waistline to ensure full range of motion when seated or bending.
