## HOW TO MEASURE YOUR BODY

### Step-by-Step Measurement Guide

- **Chest/Bust:** Measure around the fullest part of your chest, keeping the tape horizontal under arms and across shoulder blades.
- **Waist:** Wrap the tape measure around your natural waistline (narrowest part of torso, typically just above the belly button).
- **Cuirass Height:** Measure vertically from the base of the neck/collarbone down to your waistline where the belt sits.
- **Skirt (Pteruges) Length:** Measure from waist belt level down to just above the knee line.

**Fit Note & Custom Tailoring:** Because this armor features genuine leather lacing along the back and adjustable buckle straps at the shoulders, each size allows an extra adjustment range of approximately **±2 inches (±5 cm)**. If your measurements fall between two sizes or if you require custom dimensions, please contact us with your full exact measurements.
